SUBJECT INDEX

Items of pediatric and medical interest from other sources which appeared in this volume are included in the index and are followed by "note" in parentheses. "Ethics" includes items and topics of interest to ethicists as well as ethical issues per se.

Accidents
  air rifle injuries in children, 751
  aspirin fatalities (letter), 249
  controlled field trial of poisoning prevention method, 515
  injuries associated with hot tubs and whirlpool spas, 805
  radiodensity of proposed new penny in accidental aspiration or ingestion, 224
  traumatic deaths from dog attacks, 193
Acetylcholinesterase, histochemical staining technique for detection of, 755
Acidemia,
  isovaleric, blood ammonia concentration and organic acid accumulation in, 115
  lactic, in Reye's syndrome, 64
  propionic, blood ammonia concentration and organic acid accumulation in, 115
Acidosis, renal tubular, dietary sodium restriction and, 317
Acrodermatitis, caused by low zinc content in mothers' breast milk, 176
Acrodermatitis enteropathica, zinc dependency as cause of chronic diarrhea in, 773
Adolescence
  effects of parent training on teenage mothers and their infants, 703
  medication compliance and self-image among patients with juvenile rheumatoid arthritis, 15
  testosterone treatment of growth delay in male adolescents, 681
Adolescents, use in day care centers (letters), 666
Adoption, dysmorphology and (letters), 665
Aganglionosis, histochemical diagnosis of Hirschsprung disease, 755
Age, gestational, assessment in newborn infants, 27
Albuterol, treatment of asthma, 397
Alcohol, prevention of adverse effects on fetal development (commentary), 813
Aldosterone, urinary levels in patient with persistent pseudohypoaldosteronism, 458
Amenorrhea, effect of breast-feeding on, 164
American Academy of Pediatrics
  Committee statements
    Committee on Drugs: Psychotropic drugs in pregnancy and lactation, 241
    Committee on Genetics: New issues in newborn screening for phenylketonuria and congenital hypothyroidism, 104
    Committee on Sports Medicine: Climatic heat stress and the exercising child, 808
  policy statement based on task force report on promotion of breast-feeding, 654
  Section on Urology: 49th Annual Meeting, Oct 24–26, 1980, 100
American Board of Pediatrics, candidates certified, 136, 508, 674
Amniocentesis, genetic counseling in fatal trisomies, 94
Anemia, aplastic, Down's syndrome and (letters), 501, 502
Anencephaly
  incidence, 511
  intrinsic auricular muscles and auricular form, 91
Aneurysm, in Takayasu's disease, 626
Angioplasty, percutaneous transluminal, treatment for renal artery stenosis, 489
Anomaly, congenital, incidence of nervous system defects, 511
Anthropometrics, creatinine excretion in preterm infants, 719
Antibiotics, prophylactic, in pediatric surgery, 1
Antibody
  persistence in children with cancer after influenza vaccine administration, 226
  response in children with nephrotic syndrome, 219
Antidiuretic hormone, treatment of hyponatremia due to inappropriate secretion of, 610
Aorta, coarctation of, 159
Apnea
  effects on transcutaneous oxygen pressure, 413
  in near-miss sudden infant death syndrome, 785
Arachidonic acid, metabolism in neonatal platelet, 714
Arrhythmias
  cardiac, complication associated with digoxin therapy, 463
  central, detection of seizure activity in paralyzed neonate, 583
Arteries, conducting tissue, lesions of, in sudden infant death syndrome, 50
Arthritis, juvenile rheumatoid, medication compliance among adolescents with, 15
Aspiration
  accidental, radiodensity of proposed new penny, 224
  suprapubic, associated with hematoma, 455
Aspirin
  cause of death by therapeutic mishap (letter), 249
  Reye syndrome and, 810; commentary, 822
Asthma
  dosage correction (letter), 663
  flunisolide aerosol for treatment of, 340
  gastroesophageal reflux and (letters), 384
  oral albuterol in treatment of, 397
Atrioventricular block, congenital, diagnosis and management of patients with, 728
Attention deficit disorder, acute and chronic treatment with methylphenidate, 688
Audiometry, impedance, classification of positive-pressure tympanograms, 351
Autopsy, clinical pathologic reappraisal of kernicterus, 267

Bacteremia, relationship between clinical disease and magnitude of, 699
Bacteria, screening programs for (letters), 251
Bactogen, diagnosis of *Haemophilus influenzae* type b infection, 466
Bannayan syndrome
  case report of family with, 632
  mental retardation in, 642
Basophil, releasability in neonates, 188
Behavior
  children's concepts of their illness, 355
  food and (letter), 128
  psychopharmacology of attention deficit disorder, 688
Benzathine penicillin, serum penicillin concentrations after intramuscular administration, 452
Bilirubin
  brain damage and (commentary), 381
  free, development of kernicterus in premature infants, 260
  interlaboratory variability, 277
  kernicterus and, in low-birth-weight

Bilirubin—*continued*
infants, 481
Bilirubin meter, evaluation as screening device, 107
Bilirubin photoisomers, bronze baby syndrome in neonates treated with phototherapy, 273
Bilirubinometry
cutaneous, evaluation of bilirubinometer (commentary), 126
transcutaneous, new light on old subject (commentary), 124
Biopsy, diagnostic, indications in children with enlarged peripheral nodes, 391
Bladder, suprapubic aspiration associated with hematoma, 455
Blastema, renal, in lumbosacral area, 336
Blood-brain barrier, bilirubin entry into brain due to opening of, 255
Blood culture, quantitative, relationship between magnitude of bacteremia and clinical disease, 699
Blood flow, cerebral
in infantile hydrocephalus, 4
in preterm infants with patent ductus arteriosus, 778
Blood pressure
arterial, detection of seizure activity in paralyzed neonate, 583
effect of calcium treatment on, in neonatal hypocalcemia, 605
in low-birth-weight infants (letters), 663, 664
Blood transfusion, cytomegalovirus infection following (commentary), 650
Bochdalek, intermittent diaphragmatic hernia of, 601
Body composition, creatinine excretion in preterm infants and, 719
Botulism, infant, response to letters (letter), 830
Bowel perforation, use of metrizamide in neonatal pneumoperitoneum, 587
Bradycardia, symptomatic sinus node dysfunction in children without structural heart disease, 590
Brain, slow growth in utero and later developmental abilities, 296
Brain damage
bilirubin and (commentary), 381
pulsatility index, patent ductus arteriosus, and (commentary), 818
Breast-feeding
defective mammary secretion and zinc deficiency in premature infants, 176
effect on postpartum amenorrhea, 164
promotion of (policy statement), 654
related to resistance to infection in developing country, 169
Bronze baby syndrome, development in neonates treated with phototherapy, 273

Caffeine, intake in 19-month-old child (letter), 500
Calcium
restriction following oral calcium loading studies, 594
treatment for heart rate and blood pressure in neonatal hypocalcemia, 605
urinary excretion following oral calcium loading test, 594
Cancer, persistence of antibody after influenza vaccine administration to children with, 226
Candidiasis, laryngeal, presenting as inspiratory stridor, 234
Carbamazepine, interaction with isoniazid, 494
Carboxyhemoglobin, concentration in fetal cord blood, 371
Catheter
cause of death during central hyperalimentation, 305
malposition during umbilical exchange transfusion, 799
Cerebral palsy, normalization of motor handicap, 529
Cesarean section, neonatal circulatory changes following, 374
Child abuse
cross-cultural perspectives in (commentary), 497
insulin abuse resulting in hypoglycemia, 804
medical evaluation of sexually abused children, 8
prevention by education of high school students, 558
Chloramphenicol, interactions (letters), 667, 668
Cholestasis, familial progressive, meconium peritonitis and increasing sweat chloride determinations in, 325
Chromatography, high-pressure liquid, bronze baby syndrome in neonates treated with phototherapy, 273
Chromosomes, fragile sites (commentary), 121
Circulation, neonatal, changes following cesarean section, 374
Circumcision, urinary tract infections in young infants, 409
Clomipramine, neonatal effects of maternal treatment, 233
Coarctation, aortic, detection and physical findings, 159
Colic, near fatal hyperkalemia resulting from treatment for, 117
Colon, focal lymphoid hyperplasia of, 598
Commentaries
A general journal, high prices, and new journals, 813
A hospice setting for humane neonatal death, 239
Bilirubin and brain damage—A real mess, 381
Caring for foster children, 649
Cross-cultural perspectives in child abuse, 497
Fragile sites on chromosomes, 121
Growing up too fast, 123
Help wanted, 816
High-frequency ventilation: Panacea or problem?, 240
Neural tube defects: Prevention by vitamin supplements, 498
New section on uses of computers in pediatrics, 121
Nuances or nuisances for cutaneous bilirubinometry, 126
Posttransfusion cytomegalovirus infections, 650
Prevention of fetal alcohol effects (commentary), 813
Pulsatility index, patent ductus arteriosus, and brain damage, 818
Reye syndrome and aspirin use: The role of prodromal illness severity in the assessment of relative risk, 822
Russian roulette in the nursery—Again, 380
Skull roentgenograms in pediatric head trauma: A vanishing necessity?, 237
Transcutaneous bilirubinometry: A new light on an old subject, 124
Water-soluble vitamin D in human milk: A myth, 238
Computed tomography, diagnosis of pulmonary artery sling, 472
Computers, use in pediatrics (commentary), 121; further discussion (letter), 835
Conjunctivitis, purulent, associated with otitis media, 695
Cord blood, congenital cytomegalovirus infection and screening of, 544
Coronavirus, association with neonatal necrotizing enterocolitis, 209
Cosmetics, for young children (commentary), 123
Counseling, genetic, psychosocial aspects, 94
Creatinine excretion, anthropometric determinants in preterm infants, 719
Cryptorchidism, management (committee statement), 100
Cysts, intraoral finding in neonates, 577
Cytomegalovirus
congenital infection and immunoglobulin M antibodies in cord serum, 544
posttransfusion infection (commentary), 650
tooth structure defects in congenital infection, 646

Death, neonatal, hospice setting for (commentary), 239
Dendrites, neuronal maturation in premature infants, 33
Dengue shock syndrome, use of hydrocortisone, 45
Denver Developmental Screening Test, adaptations for preschool screening, 346
Deoxycorticosterone acetate, treatment of hyponatremia due to syndrome of inappropriate antidiuretic hormone secretion, 610
Depression, reactive, role in temporomandibular joint dysfunction, 564
Development, comment on social context (letters), 666, 667
Diabetes, insulin-dependent, knowledge about, among children and parents, 708
Diabetes mellitus, insulin-dependent, reversal of cerebral edema and ophthalmoplegia by mannitol, 87
Diagnosis, otoscopic, correlation of tympanometric findings, 351
Diaphragm strength, in near-miss sudden infant death syndrome, 782
Diarrhea
chronic, zinc dependency as cause of, 773
infantile, oral electrolyte solutions for (letters), 503

Diet
hyperkinesis and (letter), 250
plant fiber intake (letter), 130
Digitalis glycosides, complications associated with digoxin therapy in low-birth-weight infants, 463
Digoxin therapy, complications in low-birth-weight infants, 463
Dilation, pupillary, in neonates, 77
Disease
chronic granulomatous, *Pnemocystis carinii* pneumonia and (letter), 133
prevalence among poor children, 550
Dislocation, atlantoaxial, in Down syndrome, 568
Divorce, congenital heart disease related to, 747
Dog bites
in children less than 4 years old, 119
traumatic deaths from, 193
Doppler method, pulsed, diagnosis of arteriovenous malformation, 84
Down syndrome
aplastic anemia and (letters), 501, 502
symptomatic atlantoaxial dislocation in, 568
Drugs
β-adrenergic, in treatment of asthma, 397
psychotropic, in pregnancy and lactation (committee statement), 241
Dysmorphology, adoptions and (letters), 665
Dysplasia, bronchopulmonary
suddent infant death syndrome in infants with, 301
ventilator techniques (letters), 387

Eagle-Barrett syndrome, designation for prune belly syndrome (letter), 504
Ear, intrinsic auricular muscles and auricular form, 91
Echocardiography
in *Aspergillus* endocarditis, (letters), 252, 253
study of neonatal circulatory changes following cesarean section, 374
Edema, cerebral, reversal by mannitol, 87
Education, postgraduate, commercial motives (letter), 670
Electrolyte, oral solutions for infantile diarrhea (letters), 503
Electron microscopy, in examination of stool in neonatal necrotizing enterocolitis, 209
Emesis, tube size and (letter), 388
Empyema, gas formation in pleural space of child with, 492
Endocarditis, *Aspergillus*, use of echocardiography in (letters), 252, 253
Energy cost of growth and metabolism, partition in very low-birth-weight infant, 446
Enterocolitis, necrotizing
catheter tip localization and, 799
coronavirus infection and, 209
Enuresis, dangers of imipramine therapy (letter), 831
Epilepsy, school personnel and (letters), 834
Errata, 138, 389, 471
Erythroblastopenia, transient, case report (letter), 250
Exchange transfusion
partial plasma, neurologic outcome, 419
umbilical venous, catheter tip localization during, 799
Exercise, climatic heat stress and (committee statement), 808
Eyes, malformations in infant exposed to hydantoin in utero, 202

Feeding, transpyloric and intermittent gavage, in preterm infant (letters), 133
Fetus
working during pregnancy, effects on, 724
gonorrhea with deep tissue infection in, 74
prevention of alcohol effects on (commentary), 813
Fever, in full-term neonates in first four days of life, 40
Fistula, iliocaval, in Takayasu's disease, 626
Flunisolide, in aerosol form for treatment of asthma, 340
Fontanel, anterior, persistence in normal child, 644
Food, behavior and (letter), 128
Foster children, health status, 521; commentary, 649
Fracture, skull, likelihood ratio, 139
Fragile-X syndrome, treatment (letter), 670

Gas, intrathoracic, in child with anaerobic streptococcal pneumonia and empyema, 492
Gastroesophageal reflux
asthma and (letters), 384
effectiveness of positioning therapy for, 768
Giardiasis, quinacrine hydrochloride-induced skin discoloration, 232
Gonorrhea, fetal, with deep tissue infection, 74
Growth and development
changes in outcome for very low-birth-weight infants, 285
developmental delay as result of neonatal hyperviscosity syndrome, 426
developmental screening of preschool-aged children, 346
effects on fetus of working during pregnancy, 724
factors associated with maternal assessment, 537
follow-up study of small-for-gestational-age babies, 296
physical and developmental differences in breast-fed and artificially fed infants, 169
testosterone treatment of growth delay in male adolescents, 681
Growth hormone, deficiency in twins, 486
Guns, air rifle injuries, 751

Haemophilus influenzae
in conjunctivitis-otitis syndrome, 695
relationship between magnitude of bacteremia and clinical disease, 699
Haemophilus influenzae type b
ampicillin-resistant strain with no detectable β-lactamase activity, 230
latex particle agglutination test for diagnosis of, 466
value of biotyping, 215
Handicap, effectiveness of early intervention in infants with, 635
Head
intelligence related to size of (letters), 129, 130
roentgenogram use in mild trauma of, 139; commentary, 237
Health, social status and, 550
Health care
foster children and, 521; commentary, 649
lack of anticipatory guidance (letters), 500, 501
morbidity and mortality of low-birth-weight infants before and after neonatal intensive care, 613
physician supply and requirement for 1990, 150
results of neonatal intensive care for very low-birth-weight infants, 621
Health education
child abuse prevention and, 558
knowledge about insulin-dependent diabetes among children and parents, 708
Hearing
defects related to congenital cytomegalovirus infection, 544
intellectual and developmental test results related to (letters), 829
Heart, malformations in infant exposed to hydantoin in utero, 202
Heart disease
congenital, marital stability and, 747
diagnosis and management of patients with congenital atrioventricular block, 728
Heat stress, prevention in exercising child (committee statement), 808
Hemangioma, in Bannayan syndrome, 632
Hematoma, suprapubic aspiration associated with, 455
Hemoglobin A_2, developmental pattern in normal and β-thalassemia infants, 734
Hemoglobin F, developmental pattern in normal and β-thalassemia infants, 734
Hemoperitoneum, in neonates with subcapsular hemorrhage of liver, 204
Hemorrhage
intraventricular, related to pneumothorax, 144
subcapsular, of liver in neonates, 204
Hernia, diaphragmatic, delayed, congenital, 601
Heterogeneity, autosomal recessive type of whistling face syndrome in twins, 328
Hirschsprung disease, histochemical diagnosis, 755
Histamine, factors limiting immunoglobulin E-mediated release, 188
Hospice, for neonatal death (commentary), 239
Hospitalization, chronically ill children's concepts of their illness, 355
Hyaline membrane disease
role in later lung abnormalities, 572
treatment and later pulmonary function, 572

Hydantoin, malformations caused by in utero exposure to, 202
Hydrocephalus
incidence, 511
infantile, pulsatile flow in anterior cerebral arteries, 4
Hydrocortisone, use in dengue shock syndrome, 45
Hyperalimentation
laboratory support (letter), 833
sudden unexpected death during, 305
Hyperammonemia, Reye's syndrome and, 53
Hyperbilirubinemia
bilirubin entry into brain due to blood-brain barrier opening, 255
infant cry analysis used in detection of, 197
Hypercalcemia, asymptomatic neonatal familial, case report, 109
Hyperkalemia
dietary sodium restriction and, 317
from colic treatment, 117
persistent pseudohypoaldosteronism and, 458
Hyperkinesis, diet and (letter), 250
Hyperplasia, focal lymphoid, of colon, 598
Hypertension
association with fetal growth retardation in working pregnant women, 724
dietary sodium restriction and, 317
Hyperthermia, maternal, neurologic findings with (letters), 128, 129
Hyperviscosity, neonatal
developmental and neurologic sequelae, 426
effect of partial plasma exchange transfusion, 419
Hypervitaminosis A, case report, 112
Hypocalcemia, neonatal, calcium treatment for blood pressure and heart rate in, 605
Hypoglycemia, factitious, insulin abuse resulting in, 804
Hyponatremia
combined treatment of, 610
persistent pseudohypoaldosteronism and, 458
seizures and (letters), 385
Hypospadias, surgical reconstruction (committee statement), 100
Hypothyroidism, congenital, new issues in neonatal screening (committee statement), 104

Illness, chronic, children's concepts of, 355
Imipramine, lethal effects (letter), 831
Immunization
effect of cancer chemotherapy on persistence of antibody, 226
risk of pertussis vaccine (letter), 386
Immunoglobulin E, effect on histamine release in neonatal basophils, 188
Immunoglobulin M, significance of antibodies in cord serum, 544
Incubator, efficacy in producing thermoneutrality for small premature infants, 439
Indomethacin, therapeutic failures after oral administration (letter), 507
Infant cry, clue to diagnosis, 197
Infant development, maternal perception, 537
Infant feeding
infant formula controversy (letters), 245–247, 388
physical and developmental differences in breast-fed and artificially fed infants, 169
role of soy formula in very low-birth-weight infants (letters), 672
Infection
congenital, significance of immunoglobulin M antibodies in cord serum, 544
urinary tract, in young infants, 409
Influenza
persistence of antibody after vaccine administration to children with cancer, 226
whole-virus and split-virus vaccines, 404
Influenza B, altered theophylline clearance during outbreak of, 476
Influenza vaccine, reactogenicity and immunogenicity, 404
Ingestion, accidental, radiodensity of proposed new penny, 224
Insulin, factitious hypoglycemia following abuse of, 804
Intelligence, head size and (letters), 129, 130
Intensive care, neonatal, changes in outcome for very low-birth-weight infants, 285
Intervention programs
effectiveness and accountability of, 635
effects of parent training on teenage mothers and their infants, 703
Isoniazid, interaction with carbamazepine, 494
Isopropyl alcohol, burn hazard in neonate (letter), 506

Jaundice
bilirubin entry into brain due to blood-brain barrier opening, 255
interlaboratory bilirubin variability, 277

Kawasaki disease, association with uveitis, 376
Kernicterus
bilirubin entry into brain due to blood-brain barrier opening, 255
development in premature infants, 260
neuropathologic reappraisal, 267
predictive indices (letter), 383
unbound bilirubin and, in low-birth-weight infants, 481
Kidney, ectopic renal tissue in lumbosacral area, 336

Lactation, psychotropic drugs and (committee statement), 241
Lactose breath hydrogen test, comments on (letters), 827
Latex particle agglutination test, rapid diagnosis of *Haemophilus influenzae* type b infection, 466
Lavage, tube size and (letter), 388
Lead exposure, results of study questioned (letters), 134, 135, 248
Leukemia, antibody persistence after influenza vaccine administration to children with, 226
Leukoedema, intraoral finding in neonates, 577
Leukomalacia, hemorrhagic periventricular diagnosis by real time ultrasound, 282
Lipid, abnormalities related to unexplained stroke, 308
Lipoma, in Bannayan syndrome, 632
Lipoprotein, abnormalities, related to unexplained stroke, 308
Liver, subcapsular hemorrhage in, 204
Lung, role of hyaline membrane disease in later lung abnormalities, 572
Lymph node, indications for diagnostic biopsy, 391
Lymphadenopathy, indications for lymph node biopsy, 391
Lymphangioma, intraoral finding in neonates, 577

Macrocephaly, in Bannayan syndrome, 632
Malformation, arteriovenous, diagnosis by ultrasound and pulsed Doppler method, 84
Mannitol, use in insulin-dependent diabetes mellitus, 87
Maple syrup odor, in intensive care unit (letter), 506
Marriage, congenital heart disease and stability of, 747
Measles, immunity after revaccination, 332
Meat tenderizer, treatment of stings (letter), 505
Meningioma, in Bannayan syndrome, 632
Meningomyelocele, renal blastema found during reparative surgery for, 336
Mental retardation
fragile-X syndrome and (letters), 668, 669
in Bannayan syndrome, 642
in children who outgrew cerebral palsy, 529
Methylphenidate, psychopharmacology of attention deficit disorder, 688
Metrizamide, use in ruling out perforation of bowel in neonatal pneumoperitoneum, 587
Milk, human, water-soluble vitamin D in (commentary), 238
Mongolian spots, mistaken for cases of child abuse (letter), 672
Monitoring, polygraphic, sleep-wake distribution patterns, 793
Mothers, maternal opinion of infant development, 537
Mouth, anomalies in neonates, 577
Muscle, ventilatory, function in near-miss sudden infant death syndrome, 782
Muscle mass, creatinine excretion in preterm infants and, 719
Myelomeningocele, decline in incidence, 511
Myelopathy, atlantoaxial dislocation in Down's syndrome, 568
Myxedema, congenital rubella and, 495

Neisseria meningitidis, relationship be-

tween magnitude of bacteremia and clinical disease, 699
Neonate
abnormalities of neutrophil adherence, 184
arachidonic acid metabolism in neonatal platelet, 714
assessment of gestational age, 27
association of coronavirus and necrotizing enterocolitis, 209
asymptomatic familial hypercalcemia, case report, 109
basophil releasability in, 188
calcium treatment for blood pressure and heart rate in hypocalcemia, 605
circulatory changes following cesarean section, 374
clinical pathologic reappraisal of kernicterus, 267
contrast bowel studies in cases of pneumoperitoneum, 587
detection of seizure activity using continuous monitoring, 583
effects of maternal clomipramine treatment, 233
full-term, fever in first four days of life, 40
hospice setting for neonatal death (commentary), 239
intraoral findings and anomalies, 577
mortality and morbidity of low-birth-weight infants before and after neonatal intensive care, 613
premature, relationship of pneumothorax to intraventricular hemorrhage, 144
pupillary dilation in, 77
results of neonatal intensive care for very low-birth-weight infants, 621
subcapsular hemorrhage of liver in, 204
very low-birth-weight, changes in outcome for, 285
Nephritis, acute interstitial, kidney biopsy in diagnosis (letter), 505
Nephrotic syndrome, serum antibody response to pneumococcal vaccine in children with, 219
Neural tube
defects of, 511
prevention of defects by vitamin supplements (commentary), 498
Neutrophil, abnormalities of adherence in neonates, 184
Nutrition, parenteral, zinc deficiency during, 801

Ophthalmoplegia, reversal by mannitol, 87
Osteochondritis, management in puncture wounds of foot, 432
Otitis media
classification of positive pressure tympanograms, 351
differentiation from temporomandibular joint dysfunction, 564
purulent conjunctivitis associated with, 695
Oxygen consumption, of small premature infant in incubator and open warmer, 439
Oxygen pressure, transcutaneous, effects of central apneas on, 413

Pacemaker, use in patients with congenital atrioventricular block, 728
Pain, myofascial, in temporomandibular joint dysfunction, 564
Pancuronium, detection of seizure activity in paralyzed neonate, 583
Parent training, effects on teenage mothers and their infants, 703
Parents, value of documentation of medical events (letter), 826
Patent ductus arteriosus
brain damage and (commentary), 818
cerebral hemodynamics in preterm infants with, 778
Pediatrics
physician supply and requirement, pediatric resident education, 150
poor self-image (letters), 670
role in school-related problems, 739
subspecialty and general publications (commentary), 813
Penicillin, serum concentrations after intramuscular administration of benzathine penicillin G, 452
Peritonitis, meconium, in familial progressive intrahepatic cholestasis, 325
Peroxidase oxidation, measurement of serum free bilirubin level, 260
Pertussis, reaction to vaccine (letter), 386
Phenylketonuria, new issues in neonatal screening (committee statement), 104
Phototherapy, bronze baby syndrome in neonates treated with, 273
Picolinic acid, role in zinc metabolism, 773
Plague, pediatric, review of 38 cases, 762
Plant fiber, intake in pediatric diet (letter), 130
Platelet, neonatal, arachidonic acid metabolism in, 714
Pneumonia
Pneumocystis carinii, chronic granulomatous disease and (letter), 133
streptococcal, gas formation in pleural space of child with, 492
Pneumoperitoneum, use of contrast bowel studies in neonates, 587
Pneumothorax, related to intraventricular hemorrhage in premature newborn, 144
Poisoning
by vitamin A, case report, 112
controlled field trial of prevention method, 515
evaluation of Poison Prevention Packaging Act, 363
Polycythemia, sequelae of neonatal hyperviscosity syndrome, 426
Polyps, lymphoid, of colon, 598
Polyribosylribitol phosphate, detection by latex particle agglutination, 466
Poverty, child health and social status, 550
Pregnancy
effects on fetus of working during, 724
psychotropic drugs during (committee statement), 241
teenage, relationship to child abuse, 558
Premature infant
acrodermatitis in breast-fed infants, 176
anthropometric determinants of creatinine excretion in, 719
complications associated with digoxin therapy, 463
developmental and neuropsychiatric disabilities, 285
effective treatment for retrolental fibroplasia (commentary), 380
free bilirubin and other risk factors in development of kernicterus, 260
mortality and morbidity in very-low-birth weight infants, 21
relationship of pneumothorax to intraventricular hemorrhage, 144
retardation of neuronal maturation, 33
transpyloric and intermittent gavage feeding in (letters), 133
unbound bilirubin and kernicterus in, 481
Prescriptions, reducing cost of (letters), 502, 662
Pressure, transdiaphragmatic, in near-miss sudden infant death syndrome, 782
Prostaglandin, arachidonic acid metabolism in neonatal platelet, 714
Pseudocholesterol crystals, in neonatal urine (letter), 501
Pseudohypoaldosteronism, in 7-year-old boy, 458
Pseudomonas, management of infection in puncture wounds of foot, 432
Psychometry, abilities of children who were small-for-gestational-age babies, 296
Puberty, testosterone treatment of growth delay in male adolescents, 681
Pulmonary sling, diagnosis by computed tomography, 472
Pulsatility index
brain damage and (commentary), 818
use in infantile hydrocephalus, 4

Quinacrine hydrochloride, cause of skin discoloration, 232

Radiant warmer, efficacy in producing thermoneutrality for small premature infants, 439
Reflux
gastroesophageal, asthma and (letters), 384
vesicoureteral, urinary infection and (committee statement), 100
Renal artery stenosis, transluminal arterial dilation of, 489
Renal disease, predicting high serum creatinine levels in children with (letters), 502, 503
Renin, plasma levels in patient with persistent pseudohypoaldosteronism, 458
Respiration
infant cry analysis used in detection of distress, 197
periodic breathing in near-miss sudden infant death syndrome, 785
Respiratory distress syndrome, incidence by sex (letters), 131, 132
Retrolental fibroplasia
California statistics (letter), 388
effective treatment (commentary), 380

Retrolental fibroplasia—*continued*
mortality and morbidity in very low-birth-weight infants, 21
Revaccination, measles immunity after, 332
Reye syndrome
aspirin and 810; commentary, 822
encephalopathogenesis and metabolic derangement, 53
lactic acidemia in, 64
Rifampin, chemoprophylactic regimen in *Haemophilus influenzae* type b infection, 215
Roentgenogram, skull, in pediatric head trauma (commentary), 237
Rubella, congenital, myxedema and, 495

Safety
air rifle injuries, 751
airplane travel and (letter), 835
controlled field trial of poisoning prevention method, 515
immersion accidents in hot tubs and whirlpool spas, 805
prevention of playground injuries, 18
standards for home and public playgrounds, 18
Salbutamol, treatment of asthma, 397
Salmonella, intrafamilial transmission, 436
Salt, intake in 19-month-old child (letter), 500
School absence, health and social implications, 739
Screening, developmental, adaptations of Denver Developmental Screening Test in preschool children, 346
Seizures
detection in paralyzed neonate, 583
hyponatremia and (letters), 385
Selenium sulfide, treatment of tinea capitis, 81
Sepsis
in urinary tract infections in young infants, 409
mortality and morbidity in very low-birth-weight infants, 21
Serum creatinine, predicting high levels in children with renal disease (letters), 502, 503
Sinus node, symptomatic dysfunction in children without structural heart disease, 590
Skinfold thickness, related to thermal environment (letters), 832
Skull, roentgenogram use in mild head trauma, 139; commentary, 237
SLAVE TORCH, infectious agents for hepatitis in infants (letter), 132
Sleep
development of sleep-wake patterns in normal infants, 793
effects of central apneas on transcutaneous oxygen pressure, 413
rapid eye movement sleep stages in normal infants, 793
respiratory behavior in near-miss sudden infant death syndrome, 785
Smoking, maternal, carboxyhemoglobin concentration in fetal cord blood, 371
Socioeconomic status, child health and, 550
Sodium, related to hypertension, hyperkalemia, and renal tubular acidosis, 317
Soy formula, role in very low-birth-weight infants (letters), 672
Speech, articulation defects in children who outgrew cerebral palsy, 529
Spina bifida, incidence, 511
Sporicide, selenium sulfide therapy for tinea capitis, 81
Sports, climatic heat stress and exercising child (committee statement), 808
Stature, testosterone treatment of growth delay in male adolescents, 681
Steroid aerosols, treatment of severe chronic asthma, 340
Stings, meat tenderizer and (letter), 505
Stokes-Adams disease, diagnosis and management of patients with, 728
Stool examination, in neonatal necrotizing enterocolitis, 209
Streptococcus pneumoniae, relationship between magnitude of bacteremia and clinical disease, 699
Stroke, unexplained, familial lipid and lipoprotein abnormalities, 308
Sudden infant death syndrome
diaphragm strength in near-miss, 782
effects of central apneas on transcutaneous oxygen pressure, 413
in infants with bronchopulmonary dysplasia, 301
infant cry used in detection of infants at risk for, 197
lesions of cardiac conducting tissue arteries in, 50
proposed terminology (letter), 386
respiratory behavior in near-miss, 785
Surgery, prophylactic antibiotics in, 1
Sweat test, chloride determination in familial progressive intrahepatic cholestasis, 325
Syncope, symptomatic sinus node dysfunction in children without structural heart disease, 590

Takayasu's disease, with aneurysm and fistula in young infant, 626
Television, hospitalized children and (letters), 826
Temporomandibular joint, facial pain and dysfunction of, 564
Terminology, infantile apnea vs near-miss sudden infant death syndrome (letter), 386
Testosterone, treatment of constitutional delay of growth in male adolescents, 681
β-Thalassemia, developmental pattern of hemoglobin F in infants with, 734
Theophylline
individualization of dosage, 70
toxicity related to decreased clearance of, 476
Therapy, positional, effectiveness for gastroesophageal reflux, 768
Thermoregulation, relative efficacy of incubator and open radiant warmer, 439
Tinea capitis, selenium sulfide therapy, 81
Tooth, structural defects in congenital cytomegalovirus infection, 646
Toxic shock syndrome, menstrual practices altered by knowledge of (letters), 504, 505
Transposition of great arteries, diagnosis and management of patients with, 728
Trisomy, fatal, genetic counseling, 94
Tumor, testicular, management (committee statement), 100
Twins, autosomal recessive type of whistling face syndrome in, 328
Tympanograms, positive-pressure, modified schema for classification, 351

Ultrasonography
diagnosis of periventricular leukomalacia, 282
intrauterine head growth in small-for-gestational-age babies, 296
Unemployment, effects on children (commentary), 816
Urinary tract
infections in young infants, 409
urodynamic assessment of obstruction (committee statement), 100
Urolithiasis, renal hypercalciuria and gastrointestinal hyperabsorption of calcium in children with, 594
Uveitis, Kawasaki disease and, 376

Vaccine
influenza, persistence of antibody after administration to children with cancer, 226
measles, immunity after revaccination, 332
pneumococcal, serum antibody response to, in children with nephrotic syndrome, 219
Vascular ring, diagnosis by computed tomography, 472
Vein of Galen, diagnosis of malformation, 84
Ventilation, high-frequency, panacea or problem (commentary), 240
Vesicoureteral reflux, urinary infection and (committee statement), 100
Vitamin A, poisoning by, case report, 112
Vitamin D, water soluble, in human milk (commentary), 238
Vitamin supplements, prevention of neural tube defects (commentary), 498

Wakefulness, development of sleep-wake patterns in normal infants, 793
Whistling face syndrome, autosomal recessive type in twins, 328
Wilms tumor, ectopic renal tissue related to, 336
Wounds, puncture, management of *Pseudomonas* osteochondritis, 432

Yersinia pestis, cause of pediatric plague, 762

Zinc
acrodermatitis and defect of mammary secretion, 176
deficiency following surgery in zinc-supplemented infants, 801
diarrhea caused by dependency on, 773
